**Heart
Answers**

**WHAT IS
RHEUMATIC
FEVER?**

Rheumatic fever is an inflammation that may affect the heart, joints, brain or skin. It is almost always the result of a strep throat infection and is accompanied by fever. The most serious result of rheumatic fever is damage to the heart valves. However, heart damage is not an inevitable result of rheumatic fever. The risk of rheumatic fever can be decreased by prompt medical treatment of strep throat infections. Anyone who has been a victim of the disease has an increased risk of recurrence, which can be diminished by long-term treatment with antibiotics. Contact your local American Heart Association for more information.

The United Way works to help
you and your community.

A Moral in the Story.

Hank woke up in his advertised bed, slipped into his advertised slippers, and strolled across his advertised carpet. After showering in his advertised shower, he dressed in his advertised clothes, ate an advertised breakfast, petted his advertised dog, and drove away in his advertised car. At work, he sat at his advertised desk, turned on his advertised lamp, and adjusted his advertised watch.

Straightening his advertised tie, he lamented over the fact that sales were down, he had no customers, and things in general were poor. After sipping some advertised coffee, he resolved to take his unadvertised business and advertise it for sale.

So remember, it does pay to advertise.

It's an admirable goal to shoot for in publishing City directories...

But - with the thousands of subscribers to be listed, changed addresses and new numbers, we hope you understand how an error could occur.

Your name, address and telephone number in this directory likely are correct. But, if by any chance they are not, you'll do us a favor by telephoning or writing our business office.

We'll correct our records promptly so it will appear the way it should in the next issue.
